

Johana Schultz

Cornell University '24

Major: Food Science

Hana worked as a Summer office Intern in the Office of Sustainability and as the Garden Steward for the University Garden in June. Tough to take on two roles but she worked to create an energy spreadsheet for our Newton buildings, reached out to department heads and students about our STARS submission and developed new submissions for the survey, and assisted other directors with their spreadsheets.

As Garden Steward, she provided daily irrigation for the garden, maintained the growth of the vegetables and worked with the manager of the garden to provide produce for the Centre Street Food Pantry in Newton.

On behalf of the Office of Sustainability, the Real Food Club and the directors of the Facilities Department we would like to thank Hana for her hard work and dedication to the office and the garden this Summer. Our work would not have been completed without her help!

Thank you and best wishes as you continue your academic studies at Cornell University.
